What is this product?

Global Growth Fund is a sub-fund of China Life Franklin Global Fund which is an umbrella unit trust established by a trust deed dated 5 October 2020. It is governed by the laws of Hong Kong.

Investment Objective and Policy

The Sub-Fund seeks to achieve long-term capital appreciation by discovering opportunities that are overlooked or under-appreciated. To achieve this objective, the Sub-Fund will focus on long-term investment opportunities while taking advantage of short-term market volatilities, with preference over companies with a leading market position and competitive advantages that offer steady growth. The Sub-Fund aims to maximize portfolio returns by picking high quality stocks via fundamental bottom up research while reducing downside risk with thorough valuation analysis.

The Sub-Fund aims to invest at least 70% of its Net Asset Value in equity and equity related securities of companies listed on the stock exchanges in Asia Pacific, the United States and Europe.

Such equity and equity related securities include common stocks and preferred stocks. For the avoidance of doubt, less than 30% of the Sub-Fund's Net Asset Value may be invested in depositary receipts. There is no pre-determined allocations into sectors, but the Sub-Fund may focus particularly on sectors that enjoy steady growth, such as technology, consumer, and healthcare related industries, it aims to minimize price volatility with appropriate diversification across regions and sectors.

The Sub-Fund may also invest less than 30% of its Net Asset Value in China A-Shares directly (e.g. via the Stock Connects). Amongst the investments in Mainland China, the equity securities that the Sub-Fund may seek to invest in may be listed on main boards and/or ChiNext market of the respective stock exchanges in Mainland China.

Further, the Sub-Fund may invest less than 30% of its Net Asset Value in listed real estate investment trusts.

There is no restriction as to geographical allocation and market capitalisation, nor a pre-defined strategy to concentrate in any particular countries. Notwithstanding the above, depending on market circumstances, the Sub-Fund's investments may be concentrated in China and the US through e.g., investing in US-listed Chinese companies.

The Sub-Fund may also invest up to 70% of its Net Asset Value in emerging markets.

In normal market conditions, the Sub-Fund may hold less than 30% of its Net Asset Value in cash or cash equivalents. Under exceptional circumstances (e.g. market crash or major crisis), this percentage may be temporarily increased to up to 100% for cash flow management.

The Manager's fundamental analysis consists of but is not limited to industry trends, companies' business models, companies' competitive advantages, and financial performance. The key stock selection criteria include industry growth opportunities, companies positioning against peers, financial strength, and management quality. The process is supported by in-depth research and on-the-ground due diligence covering management, business partners, customers, and competitors.

The Sub-Fund may acquire financial derivative instruments for hedging purposes only.

The Manager may, on behalf of the Sub-Fund, enter into securities lending transactions for up to 25% of the Sub-Fund's Net Asset Value on a temporary basis for the purpose of meeting redemption requests or defraying operating expenses only. The Manager will not engage in other securities financing transactions on behalf of the Sub-Fund.

Use of derivatives

The Sub-Fund's net derivative exposure may be up to 50 per cent. of the Sub-Fund's net asset value.

What are the key risks?

Investment involves risks. Please refer to the Prospectus for details including the risk factors.

Investment risk

The Sub-Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Sub-Fund may suffer losses. There is no guarantee of the repayment of principal.

Equity market risk

The Sub-Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.

Risk associated with high volatility of the equity market in China or the US

High market volatility and potential settlement difficulties in the China or the US markets may also result in significant fluctuations in the prices of the securities traded on such markets and thereby may adversely affect the value of the Sub-Fund.

Emerging markets risk

The Sub-Fund invests in emerging markets which may involve increased risks and special considerations not typically associated with investment in more developed markets, such as liquidity risks, currency risks/control, political and economic uncertainties, legal and taxation risks, settlement risks, custody risk and the likelihood of a high degree of volatility.

Concentration risk

The Sub-Fund's investment may be concentrated in the China or the US markets. The value of the Sub-Fund may be more volatile than that of a fund having a more diverse portfolio of investments.

The value of the Sub-Fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the China or the US markets.

Currency risk

Underlying investments of the Sub-Fund may be denominated in currencies other than the base currency of the Sub-Fund. Also, a class of shares may be designated in a currency other than the base currency of the Sub-Fund. The NAV of the Sub-Fund may be affected unfavourably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.

Past Performance of the Sub-Fund

Past performance information is not indicative of future performance. Investor may not get back the full amount invested.

The computation basis of the performance is based on calendar year end, NAV-To-NAV, with dividend reinvested.

These figures show by how much Class A (HKD) increased or decreased in value during the calendar year being shown. Performance data has been calculated in HKD taking into account charges and excluding subscription charge and redemption charge you might have to pay.

Where no past performance is shown, there was insufficient data available in that year to provide performance.

Fund launch date: 20 September 2021

Class A (HKD) launch date: 18 January 2022

Class A (HKD) is selected as representative class of Units as it is one of the retail classes with the longest performance history.

Is there any guarantee?

The Sub-Fund does not have any guarantees. You may not get back the amount of money you invest.
